  - sharing information about the 2021 Multnomah County Budget, services/programs provided, how effectiveness is measured and the impact of COVI-19 upon them
- **Open Forum**

If you noticed on your November tax statement, more of your taxes are going to Multnomah County than the city of Gresham. At this meeting, Multnomah County Commissioner Lori Stegmann will share information about the 2021 budget whose General Fund is approximately \$700 million.

What are the services East County is receiving? How has COVID-19 affected the programs/services? Are these programs making a difference in mental health and homelessness?

Politics have become unfortunately strained in this country, but the GBNA officers request respectful dialogue in this session. We appreciate Ms. Stegmann making herself available for this conversation.
