

UFS Neighborhood Tree Plan and Outreach 2021

Neighborhood Tree Plan (NTP)

- UFS members can play a key role in developing a Neighborhood Tree Plan and working directly with Gresham's Neighborhood Associations
- Examples will be provided and staff and UFS can develop a workable NTP template
- One example is the Sellwood Neighborhood Tree Plan to be shared with the UFS
- What data and topics would the UFS like to include in a Neighborhood Tree Plan?

Neighborhood Association Outreach Framework

This outreach effort will be broken down into the following four parts:

- **Part 1 – Listen:** what are the needs/interests; who are the champions?
- **Part 2 – Inform:** share available data and identify gaps
- **Part 3 – Collaborate:** define goals, actions, targets with neighborhoods
- **Part 4 – Implement:** share plan and canopy tool

Geographic Neighborhood Outreach by Quadrants – 2021 Meeting Dates

Neighborhood Coalition Meets Second Tuesday 7 pm

Northeast/Northwest Quadrants
