

SECTION 11.0200

INITIATION AND CLASSIFICATION OF APPLICATIONS

11.0200 Initiation and Classification of Applications

11.0201 Initiation of Application

11.0202 Withdrawal of Application

11.0203 Classification of Applications by Procedure

11.0204 Review Authorities

11.0200 Initiation and Classification of Applications

11.0201 Initiation of an Application

- A. An application subject to a Type I, II, III or IV procedure may be initiated by:
 - 1. The owner of the subject property, or any person authorized in writing to act as agent of the owner; or
 - 2. The City Council.
- B. Only the City Council may initiate a Type IV legislative application to amend the text or map of the Gresham Community Development Plan or Code.

11.0202 Withdrawal of an Application

- A. An applicant may withdraw an application before it is deemed complete or may withdraw an application previously deemed complete at any time prior to adoption of a final city decision if the Manager determines that:
 - 1. The owner or authorized agent request in writing to withdraw the application; and
 - 2. No violation of this code has been identified on the subject property, or processing of the application would not correct the identified violation.
- B. The Manager may withdraw any city initiated application at any time.
- C. If an application is withdrawn after public notice of a hearing has been mailed, the Manager shall send written notice stating the application has been withdrawn to all persons who were provided mailed notice of the application or public hearing. This provision shall not apply to Type IV legislative applications that require city-wide mailed notice.

11.0203 Classification of Applications by Procedure

- A. Procedure Types. An application shall be subject to the procedure type specified in the code. **Table 11.0204** identifies the procedure type for the majority of the land use applications described in this code. If the code does not specify a procedure type for a given application and another procedure is not required by law, the Manager shall determine the appropriate procedure based on the following guidelines:
 - 1. Type I procedures apply to ministerial permits and applications based on clear and objective approval criteria or criteria that require the exercise of professional judgment only about technical issues.

2. Type II procedures apply to administrative permits and applications based on approval criteria that are reasonably objective, requiring only limited discretion.
3. Type III procedures apply to quasi-judicial permits and applications based on approval criteria that require the exercise of discretion and judgment and about which there may be broad public interest.
4. Type IV procedures are legislative and typically involve the adoption, implementation or amendment of policy by ordinance. The Type IV procedure generally applies to a relatively large geographic area containing many property owners.

B. Determination of Proper Procedure Type and Concurrent Reviews

1. The Manager shall determine whether a permit or application is categorized as Type I, II, III or IV in accordance with the guidelines set forth above. Questions as to the appropriate procedure shall be resolved in favor of the procedure type providing the greatest notice and opportunity to participate.
2. An application that involves two or more procedures may be processed collectively under the highest numbered procedure required for any part of the application or processed individually or concurrently under the procedures identified by the code, with the reviews ordered from highest level of review to lowest level of review. When a new or revised Future Street Plan is done concurrently with a Design Review Type E, it must be done as a Type II with a Manager’s decision.
3. The applicant may determine whether the application will be processed collectively or individually, with the exception of a new or revised Future Street Plan, done concurrently with a Design Review Type E, which shall be done as a Type II.
4. In the event that the completed applications that are processed collectively involve applications where the decision making authority is a combination of the Manager, the Hearings Officer, Design Commission or Planning Commission, the decision making authority will be the highest decision authority assigned by **Table 11.0204**.
5. Notwithstanding any other provision, and, upon payment of the proper fee, an applicant may choose to have the proposal processed under a procedure type (except Type IV) which provides greater notice and opportunity to participate than would otherwise be required and with the exception of a new or revised Future Street Plan, done concurrently with a Design Review Type E, which must be done as a Type II.

11.0204 Review Authorities

- A. Purpose.** Review authorities are established to make recommendations and decisions on land use applications and to recommend land use policy to the City Council. The review authorities provide an opportunity for citizen involvement and provide expertise for specialized topic areas. Review authorities that make quasi-judicial decisions do so under authority delegated by the City Council.

The review authorities identified in **Table 11.0204** are empowered to perform the powers and duties as assigned in Chapter 2 of the Gresham Revised Code.
