**In re: Veranda Property (7928 Southeast 190th Drive, Pleasant Valley, Gresham, OR)
PHS #7189**

Dear Kathy,

Pacific Habitat Services (PHS) conducted an assessment of Wetland A (0.12 acre), as delineated by Jason Smith of Castle-Rose Environmental. The wetland is located at 7928 Southeast 190th Drive in Pleasant Valley, Gresham, Oregon. The wetland was assessed offsite using the Oregon Freshwater Wetland Assessment Methodology (OFWAM).

Applying the OFWAM results for Wetland A to the Locally Significant Wetland Criteria found in Oregon Administrative Rule (OAR) 141-086-0350, found the wetland to be locally significant. This is due to its proximity (within 1/4 mile) of a 303(d) listed creek (Kelley Creek).

The DSL-approved Wetland 1 within the Schott delineation (2019-0500) will also be considered locally significant due to its proximity to Kelley Creek.

The OFWAM data sheets for both wetlands are attached.

Please let me know if you need more information.

Sincerely,

Amy Hawkins, Professional Wetland Scientist
Pacific Habitat Services, Inc.
