City of Gresham Investment Policy

The City of Gresham, Oregon (hereinafter referred to as the City) was incorporated in 1905, and is a home rule city operating under a city charter adopted in 1978. The government of the City is vested in an elected, seven-member city council, which includes the mayor. The city council appoints the city manager, who is responsible for the day-to-day management of the City. Gresham has a population of 109,820 and is located 17 miles east of downtown Portland, Oregon.

The purpose of this Investment Policy is to establish the investment objectives, delegation of authority, standards of prudence, eligible investments and transactions, internal controls, reporting requirements, and safekeeping and custodial procedures necessary for the prudent management and investment of the funds of the City of Gresham.

No officer or designee may engage in an investment transaction except as provided under the terms of this policy. All participants in the investment process shall seek to act responsibly as custodians of public trust.

This Policy has been adopted by Resolution No. 3333 of the City Council of Gresham, Oregon, on September 4, 2018 and replaces the City's previous Investment Policy, dated September 5, 2017.

SCOPE

The provisions of this Investment Policy shall apply to all investable funds of the City of Gresham and its component unit, except for deferred compensation fund assets, pension fund assets, and assets of restricted trust and escrow funds. Included under the provisions of this Policy are financial assets of general operating funds, enterprise funds, special revenue funds, and any other funds not specifically excluded which are recognized in the City's Comprehensive Annual Financial Report. The fiscal year 2018 average balance of funds invested in the City's general portfolio was \$217 million.

Except for restricted and excluded funds and special accounts, all excess cash shall be pooled into one account for investment purposes. The net investment income derived from the pooled investment account shall be allocated pro-rata to the contributing funds based upon their average daily cash balances and in accordance with generally accepted accounting principles.

OBJECTIVES

The City's funds shall be invested in accordance with all applicable City, State and Federal regulations, and in a manner designed to accomplish the following objectives, in priority order:

1. Preservation of capital and protection of investment principal.
2. Maintenance of sufficient liquidity to meet all operating requirements that are reasonably anticipated.
3. Diversification to avoid incurring unreasonable risks regarding specific security types or individual financial institutions.
4. Maximize risk-optimized portfolio return throughout economic and fiscal cycles (within the constraints of this Investment Policy). This policy discourages active trading and turnover of investments.

PRUDENCE AND INDEMNIFICATION

The standard of prudence to be used for managing the City's assets is the "prudent person" rule which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment considering the probable safety of their capital, as well as the probable income to be derived."

The overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City recognizes that no investment is totally risk-free and that the investment activities of the City are a matter of public record. Accordingly, the City recognizes that within a diversified portfolio, losses sometimes occur, and such losses shall be considered within the context of the overall portfolio's return, provided that adequate diversification has been implemented and that the sale of a security before maturity may be in the best long-term interest of the City.

The City's Custodial Officer (ORS 294.004 (2)) and staff acting in accordance with this Investment Policy, written procedures, and Oregon Revised Statutes 294.035 and 294.040 and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price change or other loss in accordance with ORS 294.047, provided that these deviations and realized losses are reported as soon as practical to the City Manager and action is taken to control adverse developments. Realized losses in the City's portfolio shall be charged against current or future investment earnings.

ETHICS AND CONFLICTS OF INTEREST

City investment staff involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program or create the appearance of an impairment of their ability to make impartial investment decisions. City investment staff involved in the investment process and investment officials shall disclose in writing to the City Manager any financial interests they have in financial institutions that conduct business with the City and they shall subordinate their personal investment transactions to those of the City.

Employees shall comply with ORS 244.040 (Code of Ethics), ORS 244.120 (Methods of Handling Conflicts), GARS Article 3.15 (Standards of Conduct), any amendments to these provisions, and any Code of Ethics applicable to employees that the City may adopt in the future.

DELEGATION OF AUTHORITY

The ultimate responsibility and authority for the investment of City funds resides with the City Council. The City hereby designates the Finance & Management Services Department Director as the Custodial Officer for the City's funds. The Custodial Officer shall invest City funds in accordance with ORS Chapter 294, Public Financial Administration, and with this Investment Policy. This Policy shall constitute a "written order" from City Council per ORS 294.035. The Custodial Officer, with the consent of the City Manager, may further delegate the authority to invest City funds to additional City Finance personnel. Persons authorized to transact investment business on behalf of the City are listed in Annex I of this Policy.

In order to manage the portfolio, resources shall be allocated to the cash management program. This commitment of resources shall include financial and staffing considerations.

INVESTMENT ADVISORY SERVICES

Subject to required procurement procedures, the City may engage the support services of outside professionals in regard to its investment program, so long as it can be demonstrated or anticipated that these services produce a net financial advantage and necessary financial protection of the City's resources. External service providers shall be licensed with the State of Oregon Division of Financial Regulation (DFR), subject to Oregon Revised Statutes, and the provisions of this Investment Policy.

The investment advisory service firm will function in a non-discretionary role and provide technical market research to help in implementing investment strategies. Non-discretionary management requires that the City maintain control of investments by requiring the firm to obtain approval for all investment transactions.

The investment advisory firm must be registered with the Securities and Exchange Commission and licensed by the State of Oregon. All investment advisory firm representatives conducting investment transactions for the City must provide certification in writing of having read, understood and agreed to comply with this investment policy.

INTERNAL CONTROLS AND COMPLIANCE

The Custodial Officer is responsible for establishing and maintaining an adequate internal control structure designed to reasonably assure that invested funds are invested within the parameters of this investment policy and, protected from loss, theft or misuse. Specifics for the internal controls shall be documented in writing. The established control structure shall be reviewed and updated periodically by the investment officer.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management. The internal controls shall address the following points:

- Separation of transaction authority from accounting and record keeping
- Custodial safekeeping
- Avoidance of physical delivery of securities whenever possible, but control requirements for physical delivery should be addressed when necessary
- Clear delegation of authority to subordinate staff members
- Confirmation of transactions for investments and wire transfers
- Compliance with and oversight of Investment Policy
- Review, maintenance and monitoring of security procedures

An external auditor shall provide an annual independent review to assure compliance with Oregon state law and the City's policies and procedures.

ACCOUNTING METHOD

The City shall comply with all required legal provisions and Generally Accepted Accounting Principles (GAAP) relating to investment accounting. The accounting principles are those contained in the pronouncements of authoritative bodies including but not necessarily limited to, the Governmental Accounting Standards Board (GASB); the American Institute of Certified Public Accountants (AICPA); and the Financial Accounting Standards Board (FASB).

SAFEKEEPING AND CUSTODY

Custodian banks shall be selected on the basis of their ability to provide services for the City's account and the competitive pricing of their safekeeping related services. The City shall execute a written Safekeeping Agreement with each custodian bank prior to utilizing that bank's safekeeping services. Financial institutions approved to provide safekeeping services for the City of Gresham are listed in Annex II.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis in accordance with ORS 294.145 (4) and (5). It is the intent of the City that all purchased securities be perfected in the name of the City. Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.

All investment securities purchased by the City, and all purchased securities under the terms of a City approved Master Repurchase Agreement, shall be delivered by book entry and shall be held in third-party safekeeping by a City approved custodian bank or the Depository Trust Company (DTC).

Per Oregon Revised Statutes Chapter 295, it is the responsibility of the State Treasurer to ensure that public funds are collateralized appropriately by the public depositories holding the deposits.

Collateral for repurchase agreements shall be limited in maturity and priced in compliance with ORS 294.035 (3)(j). See item 8 of the Suitable and Authorized Securities and Transactions section of this policy.
